VALVES & FITTINGS IN EXOTIC METALS AND ALLOYS

Thomas & Brian Pvt. Ltd. has products which ranges from Stainless Steel to Exotic Metals such as Alloy-400, Alloy-625, Alloy-276 etc. Products in these metals are manufactured in the least lead time.

VALVES FOR HIGH PRESSURES UP TO 30000 PSI.

Explore a product range for High Pressures up to 30000 PSI.

VALVES FOR SEVERE SERVICE APPLICATIONS

Engineered to withstand high pressures & temperatures of up to 10000 PSI and 600°C, these valves are well suited for a variety of services and severe conditions.

POLYMERS & ELASTOMERS FOR CORROSIVE & REACTIVE MEDIA

Products in various Specialized Plastics, Elastomers and Metals for various Corrosive and Reactive media in the Chemical and Petrochemical Industry.

BETTER IMPORT SUBSTITUTE & COST-EFFECTIVE INDIGENIZATION.

Certified ISO 9001-2015 by the prestigious TUV-NORD Group, Thomas & Brian Pvt. Ltd. has dedicated its technical knowledge and advanced manufacturing facility to develop better import substitutes and indiginized products.

- Tube Fittings
- Pipe Fittings
- Hose Adaptor Fittings
- Fusible, Lubrication Injector Fittings

GAUGE ROOT VALVES & MANIFOLDS

- Gauge Root/ Block & Bleed Valves
- Instrument Valve Manifolds

BALL VALVES

- DS & CS Series
- Trunnion Ball Valve
- HB & LH Series
- BV-20 Series

CHECK VALVES & RELIEF VALVES

NEEDLE VALVES

- SB, IB & HB Series
- UB Series
- Through Bore & Soft Seat
- NV10 & NV20 Series

MONOFLANGE & DOUBLE BLOCK & BLEED VALVES

OVER PRESSURE PROTECTOR & PRESSURE REGULATOR

• Over Pressure Protector

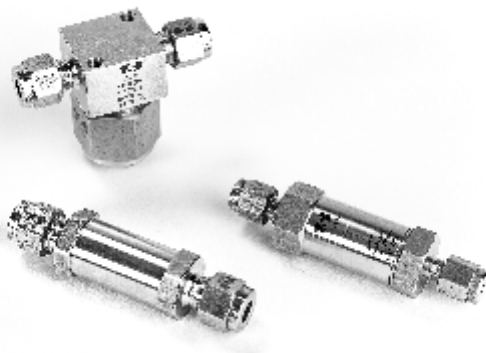

• Pressure Regulators

FILTERS & HIGH PRESSURE FLUSH BOTTOM VALVE

• Inline & Tee-Type Filter

• High Pressure Flush Bottom Valve

FIRE SUPPRESSION VALVES, ACCESSORIES & PUMPHHEAD VALVE

• Fire Suppression Valves

• Pumphhead valve

Thomas & Brian brings you the most comprehensive solutions in Corrosion Resistance and Chemical Compatibility through COREZ[®] Surface Modifications Solution.

COREZ[®] treatments are advanced Fluoro-Polymer treatments done on various Metal Equipments prone to Heavy corrosion and Chemical Attack. These coatings can be used in for performance enhancement like Lubricity or Enhance Non-Stick properties against corrosive & reactive chemicals.

FLUORO-POLYMER TREATMENT SOLUTIONS
